Subject: [External] public comments on the ACP

CAUTION: External email. Do not click links or open attachments unless verified. Send all suspicious email as an attachment to report.spam@nc.gov.

Please require more public hearing in the area where the ACP is proposed. This is a truly an injustice for those who are black Americans and our unique India tribal area.

The creation of 18 jobs, really? Crossing hundreds of water ways...using thinner gage steel for low income rural areas...a mile area considered a blast zone.....farmers who will not be able to till that area of land....the IMPACT is too much for the rate of return. WE the people will not gain from this pipeline. Dominion and Duke will just add to Climate Change. I thought Cooper believed in Climate change?

He's coming out against off shore drilling, this is all connected, and all this gas will be exported!

Stop supporting fossil fuels.

More citizens want to speak out against this pipeline.
